Oral History Release Form, Interviewer

The mission of the Boynton Beach City Library Local History Archives is to document the history of the people of Boynton Beach. An important part of this effort is the collection of oral history interviews and making these available to researchers.

We have in our collections several oral histories for which we have no release forms, and we are making an effort to contact the subject's next of kin and the interviewers for permission to make the oral histories available to the public.

I, **Victor Norfus,** hereby give permission for the oral history recordings, transcriptions, images, or other related materials made with any oral history interviews I have acted as narrator or interviewer on to be made public domain. I fully understand that these interviews will not be copyrighted by me, the interview subject, any publisher, or the Library, but will be immediately placed in the public domain. This decision is intended to provide maximum usage by future researchers.

Boynton Beach City Library Local History Archives gratefully acknowledges your assistance in making oral histories available to the public.
